

# EAST BAY PARK – BOAT LANDING

The **EAST BAY PARK – BOAT LANDING** project will not only increase the accessibility to the existing landing with wider and longer floating docks but will also increase the length of the fixed piers and reuse the existing floating piers to add two kayak/canoe launches to the facility. A covered area and landscaping will make the area more amenable to boaters and park patrons that frequent the landing.

**COST**

Design	
Construction	\$750,000
